## EDUCATION

**University of Washington — Paul G. Allen School, Seattle, WA** 2026–Present
*Computer Science, B.S.* · Graduating 2030 · GPA: 4.0/4.0
Relevant Coursework: CSE 123, MATH 126, ESS 102

**Interlake Senior High School, Bellevue, WA** 2022–2026
*International Baccalaureate Diploma* · GPA: 3.9/4.0 · SAT: 1540 | PSAT: 1510
Honors: National Merit Scholarship Finalist (Feb. 2026; 1 of 15,000 finalists out of 1.3M+ applicants)
Relevant Coursework: AP Computer Science A, AP Calculus BC, AP Physics 1, IB Physics HL, IB Math HL1/HL2, Machine Learning (Self-Taught)

## EXPERIENCE

**OpenEXA** June 2025 – June 2026
*AI Agent Developer, Bellevue, WA*

- Architected and deployed complex n8n workflows and engineered a user-centric frontend interface.

**WAForge Hackathon** Feb. 2024 – June 2025
*Director of Outreach, Bellevue, WA*

- Co-organized a large-scale, 2-day regional hackathon driving engagement for over 50 student participants representing 24 distinct schools over multiple years.
- Managed regional B2B outreach, successfully pitching and securing partnerships with 5 local tech startups, non-profits, and commercial enterprises.

## LEADERSHIP & ACTIVITIES

**IHS Rocketry Club, Interlake Senior High School** Sept. 2023 – June 2026
*Outreach Manager (2026), Mentor (2024–2026)*

- Scaled the club's digital footprint to reach over 5,000 individuals via social media; designed the official club logo, merchandising lines, and regional promotional material.
- Independently built, simulation-tested, and launched a Level 1 (L1) high-power model rocket in an attempt for the L1 certification.

**Interlake Programming Club, Interlake Senior High School** Sept. 2022 – June 2026
*Secretary (2026), Member (2022–2025)*

- Created a comprehensive training curriculum to teach an advanced sub-team fundamental AP Computer Science A algorithms, data structures, and object-oriented principles.

**Sinfonia Orchestra, Interlake Senior High School** Sept. 2022 – June 2026
*Section Leader (2026), Member (2022–2025)*

- Led the section to capture consecutive Gold Designations (scoring 90+/100) and the overall Sweepstakes Award at the World Strides Heritage Festival, outcompeting 500+ musicians.

## HONORS & AWARDS

**National Finalist & 4th Place Winner, The American Rocketry Challenge** May 2026

- Secured 4th place overall out of 1,000+ rocketry teams nationwide in the world's largest rocket contest, earning a $10,000 team prize and a $1,000 school engineering grant.

**1st Place & Most Innovative Award, Open Source AI Hackathon #18 (OSS4AI)** June 2025

- Won 1st place out of nearly 300 participants for designing and developing an intelligent email productivity workflow extension and received the Most Innovative Award.

## TECHNICAL PROJECTS

**5-DoF Articulated Robotic Arm with a 1-DoF Gripper, Independent Project** June 2026 – Sep. 2026

- Developed and assembled a hand-gesture-controlled robotic-arm prototype for precise object manipulation; designed the mechanical assembly in Onshape and implemented computer-vision and inverse-kinematics control using MediaPipe, OpenCV, and IKPy.

**L1 Certification Rocket, Independent Project** Apr. 2026

- Fabricated and successfully launched a high-power rocket for Level 1 (L1) certification, using OpenRocket for flight validation, laser-cut fins, and a custom Onshape-designed, 3D-printed jig for accurate fin alignment.

## SKILLS & INTERESTS

**Software & CAD:** Onshape CAD, OpenRocket, Unity Engine, n8n, Arduino, Raspberry Pi, Bambu Studio, IKPy, MediaPipe, OpenCV

**Programming & AI:** Python, C#, Java, Machine Learning (LSTM architecture), Git/GitHub, Arduino IDE, C++

**Hardware & Prototyping:** 3D Printing, High-Power Rocketry Assembly (L1), Soldering

**Other:** Microsoft Excel
